

"We have a history of working with EA Sports to make the most realistic football simulation on the market. While gameplay is not usually the most exciting feature of a football game, it's so important that we felt compelled to work with them again to improve it," said Alex Roper, Founder and CEO of Sensics. FIFA 20 is built on a new "World Class Engine" for a new era of football simulation. New "HyperMotion" Gameplay technology, with a player's On the Ball feels, makes a new leap forward in life-like gameplay. The My Player experience is now more immersive with the new Ultimate Team mode. The new "Choose Your Style" feature has you redefining the way you play. FIFA 20 will be available for PlayStation 4, Xbox One and Windows PC on September 27 in North America, September 30 in Europe and September 22 in Japan.
