More >> Adobe's Photoshop CC is just as powerful and the same high-quality digital imaging program. It can open most types of images, and it can be used by both professional and amateur photographers. Compared to Adobe Photoshop CS5, Photoshop CC retains all the features of the previous version plus many new ones. This software has a new user interface that allows a simpler approach to editing and more automatic tools. Like Photoshop CS6, Photoshop CC is a raster editing program. You can add and edit text, photos, movies, and other documents, but not vector graphics like Illustrator and InDesign. Adobe released a free online version of Photoshop CC

in April 2015 called Photoshop Creative Cloud. Creative Cloud offers some more editing features, but it is still not a full Photoshop program, which means that you will need to have the offline version when you need to use Photoshop. The latest version, Photoshop CC, will be online for a subscription fee. While Photoshop CC is a raster program, you can also use its flexible brushes that enable you to create photographic effects. This software is also available for Mac.

Designers and users may be able to take advantage of the latest features that can be found in Photoshop CC. Adobe's After Effects is also a raster graphics program that is especially useful for video editing. It offers a sophisticated timeline so you can film things while designing them on the computer. Chris Pratt's most recent comedy project might be one of the quickest projects on the way to the big screen. The actor will star in a movie with Happy Endings star Damon Wayans Jr., Deadline reports. The film is an adaptation of the book by author David E. Stern called Happier, an autobiographical story of a man who falls in love with a psychiatrist after being hospitalized for schizophrenia. Pratt will play himself in the project, which will be directed by Gina Kim, whose credits include web series Landline. The film marks a change for Wayans, whose last two movies were hugely successful comedies.

After penning comedies like Soul Food, The Wayans Brothers, Happy Family, and the comedy Running With Scissors, Wayans last movie, 2015's The Get Down Live, was a drama. In the movie, Pratt — who next stars in Guardians of the Galaxy — will play the son of Stern's psychiatrist, and she will play her own father. Stern told TMZ that the son is "going to have mental illness in the family, and the psychiatrist treats him and tries to help him." Stern also wrote the role for Kristen Bell as a "funny, crazy role" that she wouldn't have played, according to the outlet. Palladium-Catalyzed Electrophilic C(sp³)-H (Aryl) Arylation of Alkyne Scaffolds and Pyridines with Aryl Chlorides: A Comprehensive Mechanistic Study. A detailed catalytic study for the first time of palladium-catalyzed regioselective arylation of unactivated alkyne sp³ C-H bonds, including sp² C-H bonds of arenes and pyridines, is reported. Mechanistic investigations of the reactions proved the important role of palladacycle formation from aryl halides and 1,4-addition to Pd(0) and subsequent reductive elimination. Experimental results and a radical mechanism based on DFT calculations are reported for this class of reactions.

A US Border Patrol agent has died after he was hit by a bus while investigating an illegal entry on Highway 118 near Otay Mesa, California. The agent was among six officers who were taking part in a monthly patrol about 5am Wednesday, acting US Customs and Border Protection chief Rodney Scott said. The accident occurred after the officers stopped two suspicious vehicles – a heavy-duty flatbed truck and a passenger sedan – near the intersection of Highway 118 and Otay Mountain Road. The officers reportedly had their emergency lights and sirens activated, Scott said. “One of our Border Patrol agents had stopped to investigate the two suspicious vehicles,” Scott told a news conference. “When he approached the first vehicle, a flatbed truck, he was struck by the bus that was coming from the southbound direction.” The agent died at the scene. The truck and the sedan were driven to nearby hospitals. “A total of four people, including three adults and one child, were in the area, but none of them were involved in the accident,” Scott said. Border Patrol officials said the investigation into the agent’s death was ongoing. “Today, our thoughts

and prayers are with the agent's family, friends and colleagues," the agency said. Det. Joe R. Rodriguez, a spokesman for the San Diego police, said the officer died after being hit by a 15-ton freight truck that was heading north in the southbound direction on Highway 101. To determine the incidence of anaphylactic reactions during lidocaine use, and to assess the prognosis of patients with airway obstruction during lidocaine use. Retrospective study (1997-2003). The records of 93 patients who experienced an anaphylactic reaction during lidocaine administration were reviewed. The mean duration of lidocaine use was 6.9 years, and the average daily dose was 1.28 g. Nine (9.6%) of the 93 patients experienced an anaphylactic reaction with airway obstruction. None of the patients

with a reaction required emergency intubation. Symptoms and signs resolved after discontinuation of lidocaine use. The estimated incidence of anaphylactic reaction with airway obstruction is 0.34%. Non-cardiogenic pulmonary edema was found in 4 (44%) of the 9 patients; such edema was well controlled with systemic corticosteroid and diuretics. One of these patients experienced life-threatening laryngospasm with respiratory failure, and this case was discharged from the hospital. One (11%) of the 9 patients died after an anaphylactic reaction. The number of patients with an anaphylactic reaction is increasing. Airway obstruction during an anaphylactic reaction from lidocaine use rarely requires immediate emergency intervention. However, the prognosis is fatal without treatment.
